React Developer | Front-End Developer

Professional Summary

React Developer with 1 year of experience, including 6 months of structured training and 7 months of practical project development. Skilled in building responsive and reusable UI components with React.js and TypeScript. Experienced in state and data management using React Router v7, Redux Toolkit, and TanStack Query. Proficient in writing unit tests with Jest and work collaboratively in Agile teams. Project work has helped me take on multiple responsibilities, strengthen my problem-solving skills, and deliver applications that are practical and usable.

Technical Skills

- **Frontend**: React.js, HTML5, CSS3, JavaScript, TypeScript, Bootstrap, Tailwind
- **State Management & Routing:** Redux Toolkit, React Router v7, TanStack Query (React Query)
- **Testing:** Jest
- **Tools:** Git, GitHub, VS Code, Chrome DevTools
- **Areas of Interest:** Frontend Development, MERN Stack Development

Professional Experience

React Developer | Sales Hangry (The Iron Network Pvt. Ltd.) | Mohali, Punjab
June 2024 – July 2025

- Completed a 6-month structured training program on **HTML**, **CSS**, **JavaScript**, **TypeScript**, and **React.js**.
- Developed reusable, modular, and responsive UI components for internal dashboards and client applications.
- Implemented **React Router v7** for dynamic routing in single-page applications.
- Integrated **Redux Toolkit** and **TanStack Query** to manage client-side and server-state efficiently.
- Built and managed form handling and validation using **React Hook Form** for better performance and maintainability.
- Wrote unit test cases using **Jest** to maintain code quality and reduce bugs.
- Collaborated with senior developers to follow best practices and maintain a clean, scalable codebase.

Projects

Dashboard UI with SMS Logs Listing
- Built an interactive listing component to display SMS records along with details such as sender, recipient, timestamp, and message content etc.
- Ensured high reusability, responsiveness, and performance optimization.
- Implemented pagination and search functionality for efficient browsing of large datasets.
- Developed multiple reusable components such as **TextInput**, **NumberInput**, **Select,** and **Switch** using React Hook Form and React Bootstrap.
- Optimized rendering performance and maintained code reusability through modular React components.
- Resolved bugs and enhanced performance in shared UI components used across the application.

Education

Bachelor of Computer Applications (BCA) | **Panjab University**, **Chandigarh** | 2024

Certifications

Front-End Web Development Training – Sales Hangry (In-House Program)
